OUR QUALITY POLICY

A quality policy statement needs to be a short declaration that states how an organisation ensures the quality of its product or service. It is not in itself a quality management system (QMS) but details what processes are in place to ensure that an organisation delivers what it say it can.

Writing a quality policy statement is a useful exercise which helps management to focus on systems of work or how the organisation operates. It may encourage management to review these and consider implementing a more formal QMS to meet the requirements of BS EN ISO 9001.
